

CSCI 332 Database Concepts

G. Pothering

Fall 2020

Assignment 4A Single-Table Queries- Due October 13, 2020

Complete the following exercises using the DreamHome database from page 112 of your textbook. A backup file that can be imported into MySQL Workbench is also available from the content folder for this course on OAKS.

1. List full details of all property for rent in Glasgow.
2. List the names and addresses of all private owners from Glasgow, alphabetically ordered by last name.
3. List all double or apartments that rent for below 400, in descending order of price.
4. How many properties are for rent in London?
5. What is the average salary of a staff member?
6. For each branch, give the staff numbers of the staff members assigned to that branch.
7. What is the average salary of the staff member at each branch?
8. For each branch having more two or more staff members, list the staff number of the manager of that branch.
